UTILIZATION REVIEW PROCESS

When the Utilization Review Management Program representative conducts Utilization Reviews, the Utilization Review will include the following:

UTILIZATION REVIEW FOR MENTAL HEALTH TREATMENT

When Utilization Review is conducted for outpatient mental health Treatment, the Utilization Review Management Program representative will only request information that is relevant to the payment of the claim.

DISCLOSURE OF PERSONAL INFORMATION

When a Utilization Review requires disclosure of personal information regarding the patient or client, including:

1. Personal and family history; or
2. Current and past diagnosis of a mental disorder;

the Utilization Review Management Program representative will conceal the identity of that individual from anyone having access to that information in order that the patient or client may remain anonymous.

PLAN NOTIFICATION

Plan Notification is recommended for any Inpatient admission, including admissions to a Hospital, Chemical Dependency Treatment Center, Mental Illness Treatment Center, Chemical Dependency or psychiatric residential treatment facility, intensive Outpatient programs, or other medical procedures or services, (or as may be noted for a Covered Benefit), as soon as the Covered Provider has established such plan. This allows the Utilization Review Management Program to be working Utilization Review Management Program to begin working with the Insured on the benefit management for the service. Plan Notification is described above.

DETERMINATIONS MADE ON APPEAL OR RECONSIDERATION

A Utilization Review determination that is:

1. Made on appeal or reconsideration; and
2. Adverse to a patient or to an affected health care provider;

may not be made on a question relating to the necessity or appropriateness of a health care Treatment without prior written findings, evaluation, and concurrence in the Adverse Determination by a health care professional trained in the relevant area of health care. Copies of the written findings, evaluation, and concurrence will be provided to the patient upon the Insured's written request to the Utilization Review Management Program within thirty (30) days of determination.

A determination made on appeal or reconsideration that health care Treatment rendered or to be rendered medically inappropriate may not be made unless the health care professional performing the utilization review has made a reasonable attempt to consult with the patient's attending health

care provider concerning the necessity or appropriateness of the health care Treatment.

Also, refer to the Complaints, Grievances and Appeals provision, in Section 9, regarding appeals for adverse determinations.

SECTION 7—COORDINATION OF BENEFITS

This Coordination of Benefits (COB) provision applies when the Insured has health care coverage under more than one Plan. Plan is defined below.

The order of benefit determination rules govern the order in which each Plan will pay a claim for benefits. The Plan that pays first is called the Primary Plan. The Primary Plan must pay benefits in accordance with its policy terms without regard to the possibility that another Plan may cover some expenses. The Plan that pays after the Primary Plan is the Secondary Plan. The Secondary Plan may reduce the benefits it pays so that payments from all Plans do not exceed 100% of the total allowable expense.

DEFINITIONS

- A. A Plan is any of the following that provides benefits or services for medical or dental care or treatment. If separate contracts are used to provide coordinated coverage for members of a group, the separate contracts are considered parts of the same plan and there is no COB among those separate contracts.
- 1) “Plan” includes: group and nongroup insurance contracts and subscriber contracts; uninsured group or group-type coverage arrangements; group and nongroup coverage through closed panel plans; group-type contracts; the medical care components of long-term care contracts, such as skilled nursing care; Medicare or other governmental benefits, except as provided in Section 7, Paragraph (A) (2) below. That part of the definition of plan may be limited to the hospital, medical and surgical benefits of the governmental program; the medical benefits coverage in automobile “no fault” and traditional automobile “fault” type contracts. No plan is required to coordinate benefits provided that it pays benefits as a primary plan. If a plan coordinates benefits, it shall do so in compliance with the provisions of this chapter.
 - 2) “Plan” does not include: hospital indemnity coverage or other fixed indemnity coverage; accident only coverage; specified disease or specified accident coverage; limited benefit health coverage as defined in IDAPA 18.01.30, “Individual Disability and Group Supplemental Disability Insurance Minimum Standards Rule,” Sections 012 and 029; school accident type coverage, such as contracts that cover students for accidents only, including athletic injuries, either on a twenty-four (24) hour basis or on a “to and from school” basis; benefits provided in long-term care insurance policies for non-medical service; Medicare supplement policies; a state plan under Medicaid; or a governmental plan which, by law, provides benefits that are in excess of those of any private insurance plan or other nongovernmental plan

Each contract for coverage under (1) or (2) is a separate Plan. If a Plan has two parts and COB rules apply only to one of the two, each of the parts is treated as a separate Plan.

- B. "This Plan" means, in a COB provision, the part of the contract providing the health care benefits to which the COB provision applies and which may be reduced because of the benefits of other Plans. Any other part of the contract providing health care benefits is separate from This Plan. A contract may apply one COB provision to certain benefits, such as dental benefits, coordinating only with similar benefits, and may apply another COB provision to coordinate other benefits.
- C. The order of benefit determination rules determine whether This Plan is a Primary Plan or Secondary Plan when the person has health care coverage under more than one Plan.

When This Plan is Primary, it determines payment for its benefits first before those of any other Plan without considering any other Plan's benefits. When This Plan is secondary, it determines its benefits after those of another Plan and may reduce the benefits it pays so that this Plan does not make payments that would exceed 100% of this Plan's total Allowable expense.

- D. Allowable expense is a health care expense, including deductibles, coinsurance and copayments, that is covered at least in part by any Plan covering the person. When a Plan provides benefits in the form of services, the reasonable cash value of each service will be considered an Allowable Expense and a benefit paid. An expense that is not covered by any Plan covering the person is not an Allowable Expense. In addition, any expense that a provider by law or in accordance with a contractual agreement is prohibited from charging an Insured is not an Allowable expense.

The following are examples of expenses that are not Allowable expenses:

- 1) The difference between the cost of a semi-private hospital room and a private hospital room is not an Allowable expense, unless one of the Plans provides coverage for private hospital room expenses.
- 2) If a person is covered by two or more Plans that compute their benefit payments on the basis of usual and customary fees or relative value schedule reimbursement methodology or other similar reimbursement methodology, any amount in excess of the highest reimbursement amount for a specific benefit is not an Allowable expense.
- 3) If a person is covered by two or more Plans that provide benefits or services on the basis of negotiated fees, an amount in excess of the highest of the negotiated fees is not an Allowable expense.
- 4) If a person is covered by one Plan that calculates its benefits or services on the basis of usual and customary fees or relative value schedule reimbursement methodology or other similar reimbursement methodology and another Plan that provides its benefits or services on the basis of negotiated fees, the Primary Plan's payment arrangement shall be the Allowable expense for all Plans. However, if the provider has contracted with the Secondary plan to provide the benefit or service for a specific negotiated fee or payment amount that is different than the Primary Plan's payment arrangement and if the provider's contract permits, the negotiated fee or payment shall be the Allowable expense used by the Secondary Plan to determine its benefits.

- 5) The amount of any benefit reduction by the Primary Plan because an Insured has failed to comply with the Plan provisions is not an Allowable Expense. Examples of these types of plan provisions include second surgical opinions, precertification of admissions, and In-Network arrangements.
- E. Closed Panel Plan is a Plan that provides health care benefits to Insureds primarily in the form of services through a panel of providers that have contracted with or are employed by the Plan, and that excludes coverage for services provided by other providers, except in cases of emergency or referral by a panel member.
 - F. Custodial parent is the parent awarded custody by a court decree or, in the absence of a court decree, is the parent with whom the child resides more than one half of the calendar year excluding any temporary visitation.

COORDINATION WITH MEDICARE

In the event you have Medicare coverage and to the extent Medicare pays for benefits, any benefits paid under Medicare will be determined **before** benefits are paid under this contract or Policy. Therefore, the benefits under this contract or Policy are **Secondary** to Medicare. In the event Medicare does not pay benefits, then this contract or Policy will pay benefits as **primary**. Please note that the combined payments made by Medicare and this plan will not exceed the maximum allowance of the primary payer for the covered services provided to the member.

ORDER OF BENEFIT DETERMINATION RULES

When a person is covered by two or more Plans, the rules for determining the order of benefit payments are as follows:

- A. The Primary plan pays or provides its benefits according to its terms of coverage and without regard to the benefits under any other Plan.
- B. Except as provided in Paragraph (2), a Plan that does not contain a coordination of benefits provision that is consistent with this regulation is always primary unless the provisions of both Plans state that the complying plan is primary.
 - 1) Coverage that is obtained by virtue of membership in a group that is designed to supplement a part of a basic package of benefits and provides that this supplementary coverage shall be excess to any other parts of the Plan provided by the contract holder. Examples of these types of situations are major medical coverages that are superimposed over base plan hospital and surgical benefits, and insurance type coverages that are written in connection with a Closed Panel plan to provide out-of-network benefits.
- C. A Plan may consider the benefits paid or provided by another Plan in calculating payment of its benefits only when it is secondary to that other Plan.
- D. Each Plan determines its order of benefits using the first of the following rules that apply:
 - 1) Non-Dependent or Dependent. The Plan that covers the person other than as a dependent, for example as an employee, member, policyholder, subscriber or retiree is the Primary plan and the Plan that covers the person as a dependent

is the Secondary plan. However, if the person is a Medicare beneficiary and, as a result of federal law, Medicare is secondary to the Plan covering the person as a dependent; and primary to the Plan covering the person as other than a dependent (e.g. a retired employee); then the order of benefits between the two Plans is reversed so that the Plan covering the person as an employee, member, policyholder, subscriber or retiree is the Secondary plan and the other Plan is the Primary plan.

- 2) Dependent Child Covered Under More Than One Plan. Unless there is a court decree stating otherwise, when a dependent child is covered by more than one Plan the order of benefits is determined as follows:
 - a. For a dependent child whose parents are married or are living together, whether or not they have ever been married:
 - i. The Plan of the parent whose birthday falls earlier in the calendar year is the Primary Plan; or
 - ii. If both parents have the same birthday, the Plan that has covered the parent the longest is the Primary Plan.
 - b. For a dependent child whose parents are divorced or separated or not living together, whether or not they have ever been married:
 - i. If a court decree states that one of the parents is responsible for the dependent child's health care expenses or health care coverage and the Plan of that parent has actual knowledge of those terms, that Plan is primary. This rule applies to plan years commencing after the Plan is given notice of the court decree;
 - ii. If a court decree states that both parents are responsible for the dependent child's health care expenses or health care coverage, the provisions of (a) above shall determine the order of benefits;
 - iii. If a court decree states that the parents have joint custody without specifying that one parent has responsibility for the health care expenses or health care coverage of the dependent child, the provisions of (a) above shall determine the order of benefits; or
 - iv. If there is no court decree allocating responsibility for the dependent child's health care expenses or health care coverage, the order of benefits for the child are as follows:
 - The **Plan** covering the **Custodial parent**;
 - The **Plan** covering the spouse of the **Custodial parent**;
 - The **Plan** covering the **non-custodial parent**; and then
 - The **Plan** covering the spouse of the **non-custodial parent**.
 - c. For a dependent child covered under more than one **Plan** of individuals who are the parents of the child, the provisions of (a) or (b) above shall determine the order of benefits as if those individuals were the parents of the child.

- 3) Active Employee or Retired or Laid-off Employee. The **Plan** that covers a person as an active employee, that is, an employee who is neither laid off nor retired, is the **Primary Plan**. The **Plan** covering that same person as a retired or laid-off employee is the **Secondary Plan**. The same would hold true if a person is a dependent of an active employee and that same person is a dependent of a retired or laid-off employee. If the other **Plan** does not have this rule, and as a result, the **Plans** do not agree on the order of benefits, this rule is ignored. This rule does not apply if the rule labeled D. (1) can determine the order of benefits.
- 4) COBRA. If a person whose coverage is provided pursuant to COBRA is covered under another **Plan**, the **Plan** covering the person as an employee, member, subscriber or retiree or covering the person as a dependent of an employee, member, subscriber or retiree is the **Primary Plan** and the COBRA is the **Secondary Plan**. If the other **Plan** does not have this rule, and as a result, the **Plans** do not agree on the order of benefits, this rule is ignored. This rule does not apply if the rule labeled D. (1) can determine the order of benefits.
- 5) Longer or Shorter Length of Coverage. The **Plan** that covered the person as an employee, member, policyholder, subscriber or retiree longer is the **Primary Plan** and the **Plan** that covered the person the shorter period of time is the **Secondary Plan**.
- 6) If the preceding rules do not determine the order of benefits, the **Allowable Expenses** shall be shared equally between the **Plans** meeting the definition of **Plan**. In addition, **This Plan** will not pay more than it would have paid had it been the **Primary Plan**.

EFFECT ON THE BENEFITS OF THIS PLAN

- A. When **This Plan** is secondary, it may reduce its benefits so that the total benefits paid or provided by all **Plans** during a plan year are not more than the total **Allowable Expenses**. In determining the amount to be paid for any claim, the **Secondary Plan** will calculate the benefits it would have paid in the absence of other health care coverage and apply that calculated amount to any **Allowable Expense** under its **Plan** that is unpaid by the **Primary Plan**. The **Secondary Plan** may then reduce its payment by the amount so that, when combined with the amount paid by the **Primary plan**, the total benefits paid or provided by all **Plans** for the claim do not exceed the total **Allowable Expense** for that claim. In addition, the **Secondary Plan** shall credit to its plan deductible any amounts it would have credited to its deductible in the absence of other health care coverage.
- B. If an Insured is enrolled in two or more **Closed Panel Plans** and if, for any reason, including the provision of service by a non-panel provider, benefits are not payable by one **Closed Panel Plan**, COB shall not apply between that **Plan** and other **Closed Panel Plans**.

RIGHT TO RECEIVE AND RELEASE NEEDED INFORMATION

Certain facts about health care coverage and services are needed to apply these **COB** rules and to determine benefits payable under **This Plan** and other **Plans**. Our Claims Administrator may get the facts it needs from or give them to other organizations or persons for the purpose of applying these rules and determining benefits payable under **This Plan** and other **Plans** covering the person claiming benefits. Our Claims Administrator need not tell, or get the consent of, any person to do this. Each person claiming benefits under **This Plan** must give Our Claims Administrator any facts it needs to apply those rules and determine benefits payable.

FACILITY OF PAYMENT

A payment made under another **Plan** may include an amount that should have been paid under **This Plan**. If it does, Our Claims Administrator may pay that amount to the organization that made that payment. That amount will then be treated as though it were a benefit paid under **This Plan**. Our Claims Administrator will not have to pay that amount again. The term “payment made” includes providing benefits in the form of services, in which case “payment made” means the reasonable cash value of the benefits provided in the form of services.

RIGHT OF RECOVERY

If the amount of the payments made by Us is more than We should have paid under this **COB** provision, We may recover the excess from one or more of the persons We have paid or for whom We have paid; or any other person or organization that may be responsible for the benefits or services provided for the Insured. The “amount of the payments made” includes the reasonable cash value of any benefits provided in the form of services.

SECTION 9—CLAIM PROVISIONS

No claims have to be submitted by the Insured when services are provided by an In-Network Provider. However, the Insured will need to submit a claim to Our Claims Administrator for reimbursement considerations when the Insured receives services from an Out-of-Network Provider.

HOW TO FILE A CLAIM

When an Insured receives services from of an In-Network Provider, no claim form is required to be submitted to Us. However, if the Insured uses the services of an Out-of-Network Provider, the Insured should file a claim with Us only if the Out-of-Network Provider does not file one for the Insured.

Covered Providers participating in the In-Network Organization (POS) Network shown on page 2, Important Information, will automatically file a claim directly to Us on behalf of the Insured for whom they provide services. Therefore, the Insured is not required to complete and submit a claim to Us.

If the Insured uses the services of an Out-of-Network Provider, the Insured must submit to Us a completed claim form, unless the Out-of-Network Provider completes and submits the claim to Us on behalf of the Insured.

NOTICE OF CLAIM

Written notice of claim must be given to Us within six (6) months after the occurrence or commencement of any loss covered by this Policy or as soon after that date as is reasonably possible. Notice given by or on behalf of the Insured or the beneficiary to Us at Our Claims Administration office address is shown on page 4, *Important Information*, or to any authorized insurance producer authorized by Us, with information sufficient to identify the Insured, will be considered notice to Us.

CLAIM FORMS

We, upon receipt of a notice of claim, will furnish to the claimant such forms as are usually furnished by Us for filing proofs of loss. If such forms are not furnished within fifteen (15) days after the giving of such notice, the claimant will be deemed to have complied with the requirements of this Policy as to proof of loss upon submitting, within the time fixed in this Policy for filing proofs of loss, written proof of covering the occurrence, the character, and the extent of the loss for which claim is made.

Failure to furnish such proof within the time required will not invalidate nor reduce any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible, and in no event, except in the absence of legal capacity, later than one (1) year from the time proof is otherwise required.

TIMELY PAYMENT OF CLAIMS

Benefits payable under this Policy for any covered loss will be paid immediately upon receipt of due written proof of such loss.

Timely Settlement of Claims

We will pay or deny a claim within thirty (30) days after receipt of a proof of loss unless We make a reasonable request for additional information or documents in order to evaluate the claim. We will have the right to conduct a thorough investigation of all the facts necessary to determine payment of a claim.

If We fail to comply with the above provision and We are liable for payment of the claim, We will pay an amount equal to the amount of the claim due plus 10% annual interest calculated from the date on which the claim payment was due. For purposes of calculating the amount of interest, a claim is considered due 30 days after Our receipt of the proof of loss or 60 days after receipt of the proof of loss if We made a reasonable request for information or documents. Interest payments must be made to the person who receives the claim payment. Interest is payable under this provision only if the amount of interest due on a claim exceeds \$5.

Any payment made by Us in good faith pursuant to this provision will fully discharge Us to the extent of such payment.

PHYSICAL EXAMINATIONS AND AUTOPSY

We, at Our own expense, will have the right and opportunity to examine the person of the Insured when and as often as We may reasonably require during the pendency of a claim under this Policy and to make an autopsy in case of death where it is not forbidden by law.

RIGHT TO RECOVER

After We pay any claim under this Policy, We have the right to perform any review or audit for reconsidering the validity of the claim and requesting reimbursement for payment of an invalid claim or overpayment of a claim within six (6) months. We have actual knowledge of:

3. Another health insurance issuer or group health plan;

SUBROGATION

We will be entitled to subrogate against a judgment or recovery received by the Insured from a third party found liable for a wrongful act or omission that caused the Injury necessitating benefit payment under this Policy. Such subrogation will be to the extent necessary for reimbursement of benefits paid under this Policy to or on behalf of the Insured.

The Insured will be required to furnish any necessary information and complete documents needed by Us in order to enforce the right to subrogation. Further, the Insured cannot take any action that would prevent Us from pursuing this right of subrogation.

Third-Party Liability Provision

If You intend to institute an action for damages against a third party, You must give Us reasonable notice of Your intention to institute the action.

You may request that We pay a proportionate share of the reasonable costs of the third-party action, including attorney fees. However, We may elect not to participate in the cost of the action. If We make an election to participate, We will waive 50% of any subrogation rights granted to Us in accordance with Idaho state law.

Our right of subrogation may not be enforced until the Injured Insured has been fully compensated for the Insured's injuries.

SECTION 10—COMPLAINTS, GRIEVANCES AND APPEALS

The initial benefit claim determination notice will be included in the Insured's explanation of benefits (EOB) or in a letter from Us. Written notification will be provided whether or not the decision is adverse.

The Insured becomes a "Claimant" when the Insured makes a request for a benefit or benefits in accordance with this Policy's claims procedures.

An Authorized Representative may act on behalf of a Claimant with respect to a benefit claim or appeal under these claims procedures. Claimants should complete and submit an Appointment of Authorized Representative form in order to appoint an authorized representative. For post-

service claims, no person (including a treating health care professional) will be recognized as an authorized representative until We receive an Appointment of Authorized Representative form signed by the Claimant. For other claims, We will recognize a health care professional with knowledge of the Claimant’s medical condition as the Claimant’s authorized representative unless the Claimant provides specific written direction otherwise.

An Appointment of Authorized Representative form may be obtained from, and completed forms must be submitted to the U of U Health Plans Customer Service Department at the address listed on page 4, *Important Information*. An assignment for purposes of payment does not constitute appointment of an authorized representative under these claims procedures. Once an Authorized Representative is appointed, then We will direct all information, notification, etc., regarding the claim to the authorized representative. The Claimant will be copied on all notifications regarding decisions, unless the claimant provides specific written direction otherwise.

Any reference in these claims procedures to Claimant is intended to include the authorized representative of such Claimant appointed in compliance with the above procedures.

NOTIFICATION OF ADVERSE CLAIM DETERMINATION

1. Adverse benefit determination on a claim is “adverse” if it is: (a) a rescission or a denial, reduction, or termination of; or (b) a failure to provide or make payment (in whole or in part) for a Policy benefit.
2. Notification of adverse benefit determination, in writing, will be provided to the Claimant of the adverse benefit determination on a claim and will include the following, in a manner calculated to be understood by the Claimant:
 - a. A statement of the specific reason(s) for the decision. If the adverse benefit determination is a rescission, the notice will include the basis for the fraud and/or intentional misrepresentation of a material fact;
 - b. Reference(s) to the specific Policy provision(s) on which the decision is based;
 - c. If applicable, a description of any additional material or information necessary to perfect the claim and why such information is necessary;
 - d. A description of this Policy’s procedures and time limits for appeal of the decision, and the right to obtain information about those procedures, contact information for a consumer appeal assistance program, and if applicable, a statement of the right to sue in federal court;
 - e. If applicable, a statement disclosing any internal rule, guidelines, protocol or similar criterion relied on in making the adverse decision (or a statement that such information will be provided free of charge upon request);
 - f. If the decision involves scientific or clinical judgment, either: (a) an explanation of the scientific or clinical judgment applying the terms of the Policy to the Claimant’s medical circumstances; or (b) a statement that such explanation will be provided at no charge upon request;

- g. In the case of an urgent care claim, an explanation of the expedited review methods available for such claims, and
- h. A statement that reasonable access to and copies of all documents and records and other information relevant to the adverse benefit determination will be provided, upon request and free of charge.

Notification of the adverse decision on an urgent care claim may be provided orally, but written notification shall be furnished not later than three days after the oral notice.

YOUR RIGHT TO APPEAL

An Insured has a right to appeal an adverse benefit determination, including a rescission, under these claims procedures.

1. **How to File an Appeal.** If a Claimant disagrees with an adverse benefit determination, the Claimant (or authorized representative) may appeal the decision within 180 days from receipt of the adverse benefit determination. The appeal may be made in writing or over the telephone. Written appeals should list the reasons the Claimant does not agree with the adverse benefit determination, may include additional medical documentation and must be sent to the address given for the U of U Health Plans Appeals and Grievances Department. If the Claimant (or authorized representative) is appealing over the telephone, the Claimant should call the telephone number listed on the inside cover of this Policy.

The Claimant may ask for Request for Review forms which may be obtained by contacting the U of U Health Plans Appeals and Grievances Department or on our website at www.mhc.coop/idaho under Forms. A Request for Review form or a written appeal will be treated as received by the U of U Health Plans Appeals and Grievances Department on the date it is delivered to the above address and room. Written appeals must be sent to the U of U Health Plans Appeals and Grievances Department address shown on page 5.

2. **Access to Documents.** The Claimant will, on request and free of charge, be given reasonable access to, and copies of, all documents, records or other information relevant to the Claimant's claim for benefits. If the advice of a medical or vocational expert was obtained in connection with the initial benefit determination, the names of each such expert will be provided on request by the Claimant, regardless of whether the advice was relied on by Us.
3. **Submission of Comments.** A Claimant has the right to submit documents, written comments, or other information in support of an appeal.
4. **Important Appeal Deadline.** The appeal of an adverse benefit determination must be filed within 180 days following the Claimant's receipt of the notification of adverse benefit determination. Failure to comply with this important deadline may cause a Claimant to forfeit any right to any further review of an adverse decision under these procedures or in a court of law.
5. **Urgent Treatment Care Appeals.** In light of the expedited timeframes for decision of urgent care claims, an urgent care appeal may be submitted to the U of U Health Plans Appeals and Grievances Department by mail or telephone; refer to page 5, *Important*

Information, for contact information. The claim should include at least the following information:

- a. The identity of the Claimant;
- b. A specific medical condition or symptom;
- c. A specific treatment, service, or product for which approval or payment is requested; and
- d. Any reasons why the appeal should be processed on a more expedited basis.

- 6. Evidence Consideration.** The review of the claim on appeal will take into account all evidence, testimony, new and additional records, documents or other information the Claimant submitted relating to the claim, without regard to whether such information was submitted or considered in making the initial adverse benefit determination.

If the U of U Health Plans Grievances and Appeals Department considers, relies on or generates new or additional evidence in connection with its review of the claim, it will provide the Claimant with the new or additional evidence free of charge as soon as possible and with sufficient time to respond before a final determination is required to be provided by the U of U Health Plans Grievances and Appeals Department. If the U of U Health Plans Grievances and Appeals Department relies on new or additional reasons in denying the Claimant's claim on review, the U of U Health Plans Appeals and Grievances Department will provide the Claimant with the new or additional reasons as soon as possible and with sufficient time to respond before a final determination is required to be provided by the U of U Health Plans Appeals and Grievances Department.

- 7. Scope of Review.** The person who reviews and decides the Claimant's appeal will be a different individual than the person who decided the initial adverse benefit determination and will not be a subordinate of the person who made the initial adverse benefit determination. The review on appeal will not give deference to the initial adverse benefit determination and will be made anew. The U of U Health Plans Appeals and Grievances Department will not make any decision regarding hiring, compensation, termination, promotion or other similar matters with respect to the individual selected to conduct the review on appeal based upon how the individual will decide the appeal.
- 8. Medical Professionals.** In the event that a claim is denied on the grounds of medical judgment, the U of U Health Plans Appeals and Grievances Department will consult with a health professional with appropriate training and experience. The health care professional who is consulted on appeal will not be the same person who was consulted, if any, regarding the initial benefit determination or a subordinate of that person.

TIME PERIOD FOR NOTIFICATION OF FINAL INTERNAL ADVERSE BENEFIT DETERMINATIONS

- 1. Urgent Treatment Care Claims.** Urgent Care Claims Appeals will be completed as soon as possible, taking into account the medical exigencies, but no later than seventy-two (72) hours after receipt by the U of U Health Plans Appeals and Grievances Department of the written appeal or completed Request for Review form. The U of U Health Plans Appeals and Grievances Department will notify the Claimant and/or the Insured's Authorized Representative verbally and provide a follow-up written notice no later than seventy-two (72) hours after receipt of the appeal request.

“**Urgent Care Claim**” is a claim for medical care to which applying the time periods for making pre-service claims decisions could seriously jeopardize the claimant's life, health or ability to regain maximum function or would subject the claimant to severe pain that cannot be adequately managed without the care that is the subject of the claim. If the treating Physician determines the claim is “urgent,” the Plan must treat the claim as urgent.

- 2. Post-Service Claims.** The appeal of a post-service claim will be decided within a reasonable period but no later than sixty (60) days after receipt by the U of U Health Plans Appeals and Grievance Department of the written appeal or completed Request for Review form.

“Post-Service Claim” is a claim that involves consideration of payment or reimbursement of costs for medical care that has already been provided.

- 3. Concurrent Care Claims.** The appeal of a decision to reduce or terminate an initially approved course of treatment will be decided before the proposed reduction or termination takes place. The U of U Health Plans Appeals and Grievances Department will decide the appeal of a denied request to extend any concurrent care decision in the appeal timeframe for pre-service, urgent care, or post-service claims described above, as appropriate to the request.

“Concurrent Care” is when the Claimant has more than one medical condition existing and more than one Physician actively treats the condition related to their expertise, each physician can demonstrate medical necessity, and the treatments are provided on the same date(s). For example, an orthopedic surgeon cares for the patient's fracture while the hospitalist oversees diabetes and hypertension management.

- 4. Rescission Claims.** We will not rescind this plan or coverage with respect to an Insured once the Insured is covered under this plan or coverage involved, except that this section shall not apply to an Insured who has performed an act or practice that constitutes fraud or makes an intentional misrepresentation of material fact as prohibited by the terms of the plan or coverage. Such plan or coverage may not be cancelled except with prior notice to the enrollee, and only as permitted under section 2702(c) or 2742(b). The appeal of a decision to rescind coverage due to a fraud or intentional misrepresentation of a material fact will be decided no later than sixty (60) days from the date the U of U Health Plans Appeals and Grievances Department received the Claimant's appeal.

NOTIFICATION OF FINAL INTERNAL ADVERSE BENEFIT DETERMINATION

1. If the decision on appeal upholds, in whole or in part, the initial adverse benefit determination, the final internal adverse benefit determination notice will be provided, in writing, to the Claimant and will include the following, written in a manner calculated to be understood by the Claimant:
 - a. The specific reason(s) for the final internal adverse benefit determination, including a discussion of the decision. If the final internal adverse benefit determination upholds a rescission, the notice will include: (1) the basis for the fraud; or (2) intentional misrepresentation of a material fact;
 - b. A reference to the specific Policy provision(s) on which the decision is based, including identification of any standard relied upon in this Policy to deny the claim (such as a medical necessity standard), on which the final internal adverse benefit determination is based;
 - c. If applicable, a statement describing the Claimant's right to request an external review and the time limits for requesting an external review;
 - d. If applicable, a statement disclosing any internal rule, guidelines, protocol or similar criterion relied on in making the final internal adverse benefit determination (or a statement that such information will be provided free of charge upon request);
 - e. If applicable, an explanation of the scientific or clinical judgment for any final internal adverse benefit determination that is based on a medical necessity or an experimental treatment or similar exclusion or limitation as applied to the claimant's medical circumstances; or a statement that such explanation will be provided at no charge on request;
 - f. Contact information for a consumer appeal assistance program and a statement of the claimant's right to file a civil action under Section 502(a) of ERISA; and
 - g. A statement indicating entitlement to receive on request, and without charge, reasonable access to or copies of all documents, records, or other information relevant to the determination.
2. Notification of an adverse decision on appeal of an urgent care claim may be provided orally, but written notification shall be furnished not later than three days after the oral notice.

EXTERNAL REVIEW PROCEDURES

Please read this notice carefully. It describes a procedure for review of a disputed health claim by a qualified professional who has no affiliation with us. If you request an independent external review of your claim, the decision made by the independent reviewer will be binding and final on us. You will have the right to further review of your claim by a court, arbitrator, mediator or other dispute resolution entity only if your claim is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as more fully explained below under "Binding Nature of the External Review Decision."

If we issue a final Adverse Benefit Determination of your request to provide or pay for a health care service or supply, you may have the right to have our decision reviewed by health care professionals who have no association with us. You have this right only if our denial decision involved:

- The Medical Necessity, appropriateness, health care setting, level of care, or effectiveness of your health care service or supply, or
- Our determination that your health care service or supply was Investigational.

For purposes of the External Review the following definitions will be used:

Medically Necessary or **Medical Necessity** means treatment, services, medicines, or supplies that are necessary and appropriate for the diagnosis or treatment of an Insured's Illness, Injury, or medical condition according to accepted standards of medical practice.

- (a) Clinically appropriate, in terms of type, frequency, extent, site and duration, and considered effective for the Insured's illness, injury or disease;
- (b) Not primarily for the convenience of the Insured, physician or other health care provider; and
- (c) Not more costly than an alternative service or sequence of services or supply, and at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the Insured's illness, injury or disease.

For these purposes, "generally accepted standards of medical practice" means standards that are based on credible medical or scientific evidence.

Investigational/Experimental Service

Any technology (service, supply, procedure, treatment, drug, device, facility, equipment or biological product), which is in a developmental stage or has not been proven to improve health outcomes such as length of life, quality of life, and functional ability. A technology is considered investigational if, as determined by Us, it fails to meet any one of the following criteria:

- (a) The service/technology has final approval from the appropriate government regulatory bodies;
- (b) Medical or scientific evidence regarding the service/technology is sufficiently comprehensive to permit well substantiated conclusions concerning the safety and effectiveness of the service/technology;
- (c) The service/technology's overall beneficial effects on health outweigh the overall harmful effects on health;
- (d) The service/technology is as beneficial as any established alternative.
When used under the usual conditions of medical practice, the service/technology should be reasonably expected to satisfy the criteria of paragraphs (c) and (d) of this subsection; and
- (e) The service/technology must show improvement that is attainable outside the investigational setting. Improvements must be demonstrated when used under the usual conditions of medical practice.

If a service/technology is determined to be investigational, all services associated with the service/technology, including but not limited to associated procedures, treatments, supplies, devices, equipment, facilities or drugs will also be considered investigational.

You must first exhaust our internal grievance and appeals process. Exhaustion of that process includes completing all levels of appeal or, unless you requested or agreed to a delay, our failure to respond to a standard appeal within 35 days in writing or to an urgent appeal within three business days of the date you filed the appeal. We may also agree to waive the exhaustion requirement for an external review request. You may file for an internal urgent appeal with us and for an expedited external review with the Idaho Department of Insurance at the time if your request qualifies as an “urgent treatment request” defined below.

You may submit a written request for an external review to:

Idaho Department of Insurance
ATTN: External Review
700 W State St. 3rd Floor
Boise, ID 83720-0043

For more information and for an external review request form:

- See the Idaho Department of Insurance web site, www.doi.idaho.gov, or
- Call the Department of Insurance at (208) 334-4250, or toll-free in Idaho at 1-800-721-3272

You may represent yourself in the request or name another person, including your treatment health care Provider, to act as your authorized representative. If you want someone else to represent you, you must include a signed “Appointment of an Authorized Representative” form with your request.

Your written external review request to the Department of Insurance must include a completed form authorizing the release of any of your medical records the independent review organization may require to reach a decision on the external review, including any judicial review of the external review decision pursuant to ERISA, if applicable. The Department of Insurance will not act on an external review request without your completed authorization form.

If your request qualifies for external review, our final Adverse Benefit Determination will be reviewed by an independent review organization selected by the Department of Insurance. We will pay the costs of the review.

STANDARD EXTERNAL REVIEW

You must file a written external review request with the Department of Insurance within four months after the date we issue a final notice of denial.

1. Within seven days after the Department of Insurance receives your request, the Department of Insurance will send a copy to us.
2. Within 14 days after we receive your request from the Department of Insurance, we will determine if the request is eligible. Within five business days after we complete that review, we will notify you and the Department of Insurance in writing if the request is eligible or what additional information is needed. If we deny your request

for review, you may appeal that determination to the Department of Insurance.

3. If your request is eligible for review, the Department of Insurance will assign an independent review organization to your review within seven days of receipt of our notice. The Department of Insurance will also notify you in writing.
4. Within seven days of the date you receive the Department of Insurance notice of assignment to an independent review organization, you may submit any additional information in writing to the independent review organization for consideration.
5. The independent review organization must provide written notice of its decision to you, us, and the Department of Insurance within 42 days after receipt of an external review request.

EXPEDITED EXTERNAL REVIEW REQUEST

You may file a written “urgent treatment request” with the Department of Insurance for an expedited external review of a pre-service or concurrent service denial. You may file for an internal urgent appeal with us and for an expedited external review with the department at the same time.

“Urgent treatment request” means a claim relating to an admission, availability of care, continued stay or health care service for which the Insured received emergency service but has not been discharged from a facility, or any pre-service or concurrent care claim for medical care or treatment for which application of the time periods for making a regular external review determination:

1. Could seriously jeopardize your life or health or your ability to regain maximum function;
2. In the opinion of the treating health care professional with knowledge of your medical condition, would subject you to severe pain that cannot be adequately managed without the disputed care or treatment; or
3. The treatment would be significantly less effective if not promptly initiated.

The Department of Insurance will send your request to us. We will determine, within two full business days, if your request is eligible for review. We will notify you and the Department of Insurance no later than one business day if your request is eligible. If we deny your request for review, you may appeal that determination to the Department of Insurance.

If your request is eligible for review, the Department of Insurance will assign an independent review organization to your review upon receipt of our notice. The Department of Insurance will also notify you. The independent review organization must provide notice of its decision to you, us, and the Department of Insurance within 72 hours after the date of receipt of the external review request. The independent review organization must provide written confirmation of its decision within 48 hours of notice of its decision. If the decision reverses our denial, we will, not later than one business day after receiving notice of the decision, notify you and the Department of Insurance of our intent to pay the covered benefit.

Binding Nature of the External Review Decision: If your plan is subject to federal ERISA laws (generally, any plan offered through an employer to its employees), the external review decision by the independent review organization will be final and binding on us. You may have additional review rights provided under federal ERISA laws.

If your plan is not subject to ERISA requirements, the external review decision by the independent review organization will be final and binding on both you and us. **This means that if you elect to request external review, you will be bound by the decision of the independent review organization. You will not have any further opportunity for review of our denial after the independent review organization issues its final decision.** If you choose not to use the external review process, other options for resolving a disputed claim may include mediation, arbitration, or filing an action in court.

Under Idaho law, the independent review organization is immune from any claim relating to its opinion rendered or acts or omissions performed within the scope of its duties unless performed in bad faith or involving gross negligence.

No claim for loss incurred or disability (as defined in this policy) commencing after two (2) years from the date of issue of this Policy will be reduced or denied on the ground that a disease or physical condition not excluded from coverage by name or specific description effective on the date of loss had existed prior to the effective date of coverage of this Policy.
